

XM Radio provides a wonderful service to all its listeners. It is hard for me to believe someone would try to limit their desire to fill all the needs of its listeners by passing a law to limit their ability to provide "local"content. It seems to me this would violate the "freedom of speech" we hear so much about. I gladly pay a monthly service fee and do not want their hands tied as to what they can provide to me.This bill must be defeated.

Thank you

Paul Friederichs
